Our Mission Statement:

Norton Construction LLC is a second generation family business. Owned and operated since 1988 with one goal, to offer our customers the very best possible products and workmanship for fair and reasonable prices.

We pride ourselves on showing up on time, completing are projects in the appropriate timeframe, for the price that agreed upon. Customer satisfaction is our top priority. It is our hope to create a multi-generational relationship with all our customers. We have built our company and our name on these very principles.

We strive to not only be the best company for your home improvement projects, but also the last company home improvement company you ever will need.

About Us:

Owned and operated by Shane Norton.

Located in Derry, NH, we have been a reputable business of Southern NH for 25 years.

WeatherLock® Self-Sealing Ice & Water Barrier Products

Owens Corning® WeatherLock® Self-Sealing Ice & Water Barrier products are designed to protect the roof where water has a tendency to collect or flow, including valleys, vents, chimneys and skylights. Ice and water barrier products also help prevent damage from ice damming, when melting and refreezing water can migrate beneath the shingles and lead to premature roof deterioration.

Synthetic Underlayment

Deck Defense®
Synthetic Underlayment

Fiberglas™ Reinforced
Felt Underlayment

Owens Corning® Underlayment Products

Underlayment provides an additional layer of protection between your roof's wood decking and the shingles, mainly to guard against wind-driven rain. Owens Corning offers both Fiberglas™ Reinforced Felt Underlayment and durable, synthetic Deck Defense® High-Performance Roofing Underlayment.

Starter Shingle Roll

Starter Strip Shingle

Owens Corning® Starter Shingle Products

Starter Shingle Products are the first step in the proper installation of the shingles and help provide a clean look with a straight edge at the eave and along the rake edge of the roof. The continuous sealant bead on the product provides a seal between the starter and the first row of shingles. Owens Corning® Starter Shingle products help prevent shingle blow-offs and water infiltration in a vulnerable area of the roof.

VentSure® Ridge
Ventilation

VentSure® Solar Attic
Exhaust Fan

VentSure® Exhaust Ventilation Products

VentSure® ridge or off-ridge vents help draw air out of the attic, protecting the roofing system from heat and moisture damage. Optimally designed to work together with our VentSure® intake ventilation products, they help create a balanced flow where warm, humid air is continually replaced by cool, dry air.
